

2. Prepare a PowerPoint presentation on the history of AI.
3. Research about Alan Turing test from the Internet. Find out the role of this in AI. Prepare a document or project report on that.

CONCEPTBOT

For Teachers

Explain the meaning of AI by giving examples from the surroundings. Tell the difference between human and machine intelligence. Explain the impact of AI in our daily lives. You may discuss the positive and negative impacts of AI.

For Parents

You may talk to your child about various aspects of AI, its advantages and disadvantages. Encourage your child to think if AI affects our daily lives, social, mental and emotional health. Also, help them visit the Google AI website which provides free online courses on AI. It is working to use AI to address societal challenges and improve people's lives.
